

YFC Pre-School Program

In partnership with
Spearwood Primary School

What is the Pre-School program?

Parent / Child connection and support

Our pre-school program is an opportunity for your child to experience a school environment in a fun and interactive way, with an emphasis on parent / child connection. It is designed as a transition to school program. At these sessions, your child will be provided with a variety of developmentally appropriate activities, with a focus on creativity, imagination, and social and emotional development. Sessions are structured with a degree of flexibility to suit the individual needs of each child in the group. Pre-school sessions are run by a trained facilitator from the Yangebup Family Centre with parental support.
